Calling Made Simple!

Multi-Feature Telephone

10 Number Memory This feature allows you to program up to 10 phone numbers for easy dialing.

Ringer Control Allows you to adjust ringer volume from hi to low or turn ringer off.

Table or Wall Convertible Our design can be used as a table or wall mount phone. Easily changes from one to the other.

Receiver Volume Control This allows you to adjust the voice of the incoming call for your best listening level. For noisy areas and hard of hearing users.

One-Touch PHOTOMemory® Allows you to store 3 numbers in our one-touch memory buttons. Simply place your favorite person's photo in the button faceplate. Calling your loved ones has never been easier.

Something for Everyone!

Model 240085
Color: Sandstone

Large Dial Buttons Our extra large dial buttons makes dialing easy to use and see. This is especially helpful for those visually impaired.

Braille Raised Characters A very important feature for the visually impaired are the raised braille characters on each number key.

Selectable Dialing Phone can be used as either a touch tone or rotary service.

Redial Button Redials your busy or unanswered numbers with one touch button.

Flashing Visual Ring Indicator The indicator flashes when you have an incoming call.

Hearing Aid Compatible Our phone is compatible with inductively coupled hearing aids.
